Introduction

After crashing your ship on your way back to headquarters, you find yourself in an unknown galaxy where the locals don't take kindly to you being there. Fight your way through a volcanic crash-site, a toxic wasteland, and a frozen tundra to try and find a signal to phone headquarters.

Controls

Arrow Keys OR WASD: Move

Left Click: Shoot

Left Shift: Sprint

E: Interact

R: Reload

1: Use Ice Powerup

2: Use Fire Powerup

3: Use Poison Powerup

Gameplay Basics

Each crystal dropped by enemies replenishes the corresponding elemental power for the gun, requiring players to tactically engage with specific enemies to manage their ammo and approach environmental challenges. By selecting the correct elemental projectile to match enemy weaknesses and obstacles, players enhance their damage output and efficiency. This dynamic encourages thoughtful resource management and a careful assessment of the surroundings for optimized gameplay.

Characters, Items, and Abilities

Characters

Player

The protagonist is stranded on the Elemental Isles. Equipped with a multi-element gun capable of adapting to different challenges.

Fire Lizard

A reptilian foe that thrives in volcanic areas. The scaly beast can be mitigated with poison darts.

Plague Monster

Lurking in toxic regions, these creatures spread poison and require icy attacks to neutralize.

Ice Golem

Hulking beings of frost that block paths with their sheer size. Fire blasts are particularly effective.

Hydra

A boss creature that uses a mix of elemental attacks.

Items

Elemental Shards

Collect these to activate your weapon with the element of your choice.

Fire Shard

Toxic Shard

Ice Shard

Coins

Used to purchase upgrades to your health, ammo, armor, and damage of all types.

Door Keys

Essential for progression, each key corresponds to a door of the same color.

Blue Key

Red Key

Green Key

Abilities

Fire Blast

Effective against enemies vulnerable to heat, and can melt away frozen obstacles. Players gain fire power-ups from fire elemental crystals dropped by defeated fire-aligned enemies.

Toxic Dart

Ideal for neutralizing organic-based enemies and smothering jets of fire. Poison power-ups are collected from poison elemental crystals dropped by poison-type enemies.

Ice Shard

Best suited for freezing toxic enemies and plugging up toxic vents. Ice power-ups come from ice elemental crystals dropped by ice-aligned enemies.

Armor

Don't forget to upgrade your armor in the droid's shop. A little extra resistance goes a long way.

Tips and Strategies

- Enemies only respawn when all of them in an area are wiped out.
- Look for the key that is colored as the door you are trying to get through, it's hidden somewhere in the level, or even a chest!
